

FOLD

start

FOLD

1. Print this onto heavy weight paper or card stock. Make sure you have printed it the right size. Hold a ruler up to the one on the print and see if they are the same size. Approximately the same is fine.
2. Cut out both templates.
3. Fold your fabric in half and iron flat.
4. Lay the straight edge of template marked "fold" along the folded edge of your fabric and trace the templates with pen or marker.
5. Cut out.
6. Sew according to directions on tutorial video (video link <https://www.hollygreenberg.com/make-a-bird>)
7. Start sewing larger template at the start mark.
